\*Well, ZIMECTERIN® Gold (ivermectin/praziquantel) can, but let's not worry about that right now.

**IMPORTANT SAFETY INFORMATION:** Not for use in humans. Keep this and all drugs out of reach of children. In horses there have been rare reports of swelling and irritation of the mouth, lips and tongue following administration of ZIMECTERIN Gold. These reactions have been transitory in nature. Do not use in other animal species as severe adverse reactions, including fatalities in dogs, may result.
